

Real Solutions for Real Environmental Concerns

Rely on EnviroSouth to Simplify the Complex World of Environmental Science

We Solve Problems Before They Become Major Challenges

At first glance, environmental liabilities appear as roadblocks to progress. EnviroSouth's common-sense, cost-effective solutions remove these hurdles and prevent minor obstacles from growing into long-term complications.

With 80+ years of combined regulatory, industrial and consulting experience, our trusted team of experts provide our clients with positive results, on time, on budget, and without excuses.

Serving the Carolinas and Georgia

We Can Provide

-  Phase I/II Environmental Site Assessments
-  Soil and Groundwater Contamination Assessment
-  Soil Vapor and Indoor Air Testing
-  Soil and Ground Water Remediation
-  Brownfield Property Restoration
-  Underground Storage Tank Solutions

Solutions and Advice You Can Trust

Our president, Thomas Donn, believes everyone deserves to be treated with respect and integrity; and we treat your environmental issues the same way.

With customized strategies, EnviroSouth creates solutions that are effective, efficient and economical. We don't have to set ourselves apart from our competition; our satisfied clients already have.

What Our Clients Are Saying

"I consider EnviroSouth as problem solver as opposed to a problem creator and have recommended the company to numerous commercial purchasers."

J. Earle Furman, Jr., SIOR
Chairman, NAI Earle Furman, LLC

"I appreciate EnviroSouth's common-sense approach to problem solving. They are able to clearly explain the problem and outline logical steps to remediation."

Greg Huff, CCIM
Berkshire Hathaway Commercial
